WORK EXPERIENCE

Espranza Innovation   Sept 2021 - Present

Frontend Developer at Espranza Innovation, skilled in React and React Native, contributing to various projects."Worked individually on project as well as with team.

EDUCATION HISTORY   Aug 2020- July 2022

MCA(Hons.)

Lovely Professional University

- Scored 9.3 CGPA.

PROJECTS

Nipun Haryana

- I developed the front end of three mobile apps, the Mentor, Parent, and Teacher apps, for Nipun Haryana using React Native, TailwindCSS, and TypeScript.
- Collaborated closely with the back-end developers to ensure the front-end and back-end were properly integrated.
- We utilized various features in React Native to implement communication between mentors, parents, and teachers, mentorship program management, and teacher training.
- I used TailwindCSS to create an attractive and responsive UI for the apps, ensuring a positive user experience.

iScuela Connect

- Developed and launched the iScuela connect app on the Google Play Store, which is a student-focused mobile app that's part of an ERP school management system.
- Utilized React Native, TailwindCSS, and TypeScript to build the app, ensuring a high-quality user experience.

iScuela

- Spearheaded the end-to-end development of the iScuela mobile application, a comprehensive educational platform catering to students from classes 1 to 12.
- Implemented engaging features, including categorized course content, instructional videos, and interactive learning tools such as flashcards and quizzes.
- Leveraged React Native, TypeScript, and Tailwind CSS to create a seamless and responsive user interface.

JJP (Jannayak Janta Party)

-This project is basically for the party to manage voters and their party workers. Used **Ionic React**, **typescript**, and **tailwind CSS** to develop the front end.
